Iron and Steel Engineer Index for 1976

LIST OF AUTHORS

A

ABE, T. and K. TSUJI—"Antifriction backup bearings for tandem cold mill application," April, p 54
AIRGOOD, J. M., H. A. GROSICK and E. J. HELMS—"Underfiring requirements of modern coke ovens," May, p 27
ANDERSON, D. E. and G. E. OLNEY—"A soaking pit-slabbing mill productivity simulation," April, p 72
ANGEID, E. and H. GEDIN—"Single-stand mechanized roughing," May, p 21

B

BARNES, DR. R. S.—"Nuclear steelmaking in Europe," May, p 53
BAUM, J. P.—"Gas cleaning and air pollution control for iron and steel processes," June, p 25
BINTZER, W. W. and R. A. MALEHORN—"Air curtains on electric furnaces at Lukens Steel Co.," July, p 53
BJERKE, H. C. and M. STORSET—"Magn-O-Matic billet surface inspection equipment," July, p 42
BLAIR, T. R. and W. L. MARTIN—"Air pollution control system at Lone Star Steel's open hearth shop," April, p 83
BLICKWEDE, DR. D. J.—"Nuclear steelmaking in the U.S.—prospects and plans," April, p 38
BOBART, G. F.—"Energy saving considerations in mass induction heating," May, p 59
BOGGS, T. H., JR., J. S. SCHAPIRO, DR. H. CUTLER and E. B. BUTLER—"Federal legislation and solid waste resource recovery," Sept., p P-95
BOUCKE, K. E., H. G. HILBERT and H. J. ROEMMEN—"MKW cold mill—rolling silicon steel strip," Sept., p 25
BRETSCHNEIDER, E. J. F. E.—"The 3-roll planetary mill," March, p 64
BROWN, D. I.—"Joint effort mini-mill has the Japanese touch," Oct., p 25
BROWN, D. I.—"Refractories for the steel industry," Jan., p R-1
BROWN, E. J. and G. W. SCHUETZ—"Current trends in seamless tube mill design," Sept., p 47
BROWN, J. W. and R. L. REDDY—"Direct reduction—What does it mean to the steelmaker," June, p 37
BUTLER, E. B., T. H. BOGGS, JR., J. S. SCHAPIRO and DR. H. CUTLER—"Federal legislation and solid waste resource recovery," Sept., p P-95

C

CHESAREK, R.—"Trends in water cooled equipment," Nov., p 65
CHINNERY, R. R. and H. J. KOHLMANN—"Cold mill water conservation at John Lysaght (Australia)," Sept., p 32
CLAFLIN, H. B.—"Concepts for an improved blast furnace system," Nov., p 25
CLARK, D. W. and C. A. SCHROER—"Operating a Midrex direct reduction plant—Current state of the art," Aug., p 21
CUTLER, DR. H., E. B. BUTLER, T. H. BOGGS, JR., and J. S. SCHAPIRO—"Federal legislation and solid waste resource recovery," Sept., p P-95

D

DAUBY, P. H. AND DR. P. E. NILLES—"Control of the OBM/Q-BOP process," March, p 42

E

EDSMAR, K. G. and P. SANDELL—"Further experience with carbide rolls in rod and bar mills," Nov., p 60

F

FARRIES, D., V. S. C. PORTER and F. J. YAKLICH, JR.—"Rolling and in-line finishing of bars and shapes at CF&I Steel's Pueblo plant," Aug., p 33
FERRETTI, E. J.—"Clean energy options," July, p 38
FICAT, J., A. QUEHEN and R. THUL—"Hydraulic gage control in heavy plate mills," March, p 54
FOY, L. W.—"Oversized government—A threat to nation's economic fabric," Feb., p 34
FREIN, J. M. and DR. R. C. TUCKER, JR.—"Coatings improve performance of steel mill processing rolls," May, p 33
FUJIMORI, H. and M. INUBUSHI—"Blast furnace gas energy recovery turbine and its operation," Oct., p 51

G

GALLOWAY, S. H.—"Interlake's reversing hot mill hydraulic gage control," Sept., p 43
GEDIN, H. and E. ANGEID—"Single-stand mechanized roughing," May, p 21
GILMORE, J. T.—"High-speed continuous pickling line at Weirton Steel," Sept., p P-87
GROSICK, H. A., E. J. HELMS and J. M. AIRGOOD—"Underfiring requirements of modern coke ovens," May, p 27

H

HARRIS, A. J. and C. KRASNY—"In-line automatic shearing, stacking and bundling of round and shaped products," Nov., p 34
HELMS, E. J., J. M. AIRGOOD and H. A. GROSICK—"Underfiring requirements of modern coke ovens," May, p 27
HERMES, R. J. and J. F. TURNER—"Developments in modern bar and rod mills," May, p 39
HIGGINS, F. B., JR., T. E. KREICHELT and G. R. KERN—"Natural ventilation in hot process buildings in the steel industry," Dec., p 39
HILBERT, H. G., H. J. ROEMMEN and K. E. BOUCKE—"MKW cold mill—rolling silicon steel strip," Sept., p 25
HINRICHSEN, E. N.—"Hot strip mill runout table cooling—A system view of control, operation and equipment," Oct., p 29
HOLIDAY, H.—"A look at America's business situation," Jan., p 45
HOLLANDER, F. and DR. A. G. REINEN—"Automatic shape control—Hoogovens' 88-in. hot strip mill," April, p 45

I

INAZAKI, K., F. SATO, K. OGATA, N. KAMII and K. KOKAI—"Fully computerized bar rolling mill," Dec., p 47
INUBUSHI, M. and H. FUJIMORI—"Blast furnace gas energy recovery turbine and its operation," Oct., p 51

J

JOHNSON, L. C.—"Utilizing programmable controllers in steel plant control systems," April, p 78

K

KAMII, N., K. KOKAI, K. INAZAKI, F. SATO and K. OGATA—"Fully computerized bar rolling mill," Dec., p 47
KEENAN, R. M.—"New ragging tools cut costs—increase productivity," July, p 73
KERN, G. R., F. B. HIGGINS, JR. and T. E. KREICHELT—"Natural ventilation in hot process buildings in the steel industry," Dec., p 39
KIMURA, J., H. NAGASE and S. MATSUKA—"Computer control system applied to a cold reversing mill," Sept., p 37
KNIPE, H. F.—"Fan noise—the user's concern," Aug., p 55
KOHLMANN, H. J. and R. R. CHINNERY—"Cold mill water conservation at John Lysaght (Australia)," Sept., p 32
KOKAI, K., K. INAZAKI, F. SATO, K. OGATA and N. KAMII—"Fully computerized bar rolling mill," Dec., p 47
KOTSCH, J. A.—"Chaparral Steel—newest U.S. mini mill," April, p 33
KOTSCH, J. A.—"The new LD-steel shop at Fried. Krupp Huttenwerke AG, Rheinhausen works," June, p 33
KOTSCH, J. A. and C. J. LABEE—"Developments in the Iron and Steel Industry, U.S. and Canada—1975," Feb., p D-1
KRASNY, C. and A. J. HARRIS—"In-line automatic shearing, stacking and bundling round and shaped products," Nov., p 34
KREICHELT, T. E., G. R. KERN and F. B. HIGGINS, JR.—"Natural ventilation in hot process buildings in the steel industry," Dec., p 39
KRULL, L. J.—"Avoiding hidden costs in high-current bus bar systems for steel mills," Aug., p 42
KURZINSKI, E. F.—"Desulfurization of iron—status and evaluation," April, p 59

L

LABEE, C. J.—"Armco uses pulverized coal injection at Ashland," Aug., p 51
LABEE, C. J.—"Continuous-continuous cold reduction—Weirton's latest," Sept., p P-73
LABEE, C. J.—"Profile of SICARTSA—Mexico's newest steel plant," March, p 48
LABEE, C. J. and J. A. KOTSCH—"Developments in the Iron and Steel Industry, U.S. and Canada—1975," Feb., p D-1
LASIEWICZ, T. W.—"Laser technology as used in the iron and steel industry," June, p 47
LEE, J. S., JR. and A. MARRACCINI—"Programmable logic control for metal processing lines," July, p 47
LUMPKIN, C.—"Blowdown mute controls snort valve noise," April, p 119
LUTZ, L. H. and C. W. PAXTON—"Development of hot strip downcoiler for high-strength, heavy-gage material," Feb., p 40
LYDEN, J. J.—"Hotwork performs dryout of J&L's P-3 blast furnace," Dec., p 73

M

MALEHORN, R. A. and W. W. BINTZER—"Air curtains on electric furnaces at Lukens Steel Co.," July, p 53
MARRACCINI, A. and J. S. LEE, JR.—"Programmable logic control for metal processing lines," July, p 47
MARSHALL, P.—"Summary of the Marshall report," July, p 34
MARTIN, C. F. and H. B. PATTERSON—"A new family of large ingots at Ford—the production transition," Feb., p 35
MARTIN, W. L. and T. R. BLAIR—"Air pollution control system at Lone Star Steel's open hearth shop," April, p 83
MATSUKA, S., J. KIMURA and H. NAGASE—"Computer control system applied to a cold reversing mill," Sept., p 37
McCLUSKEY, E. J.—"Design engineering of the OG gas cleaning system at Inland's No. 2 BOF shop," Dec., p 53
McKETTA, DR. J. J.—"The eight surprises—or has the world gone to hell?" June, p 53
McNALLAN, M. J., K. C. RUSSELL, J. A. OBERTEUFFER and J. B. SEE—"High-gradient magnetic filtration of steel plant waste water," Jan., p 40
MEGO, J. F.—"Cost reduction with all-purpose cartridge-type bearings," Nov., p 30
MURRAY, R. H.—"Industrial fuel gas from coal," Dec., p 25
MYERS, R. C.—"Industrial fans—Guidelines for a successful installation," Oct., p 38

N

NAGASE, H., S. MATSUKA and J. KIMURA—"Computer control system applied to a cold reversing mill," Sept., p 37
NASO, A. C. and J. W. SCHROEDER—"A new method of treating coke plant waste water," Dec., p 60
NEMEC, F. A.—"How much environmental protection—What should be the Federal role?" Oct., p 35
NICOLA, A. G.—"Fugitive emission control in the steel industry," July, p 25
NILLES, DR. P. E. and P. H. DAUBY—"Control of the OBM/Q-BOP process," March, p 42

O

OBERTEUFFER, J. A., J. B. SEE, M. J. McNALLAN and K. C. RUSSELL—"High-gradient magnetic filtration of steel plant waste water," Jan., p 40

OGATA, K., N. KAMII, K. KOKAI, K. INAZAKI and F. SATO—"Fully computerized bar rolling mill," Dec., p 47
OLNEY, G. E. and D. E. ANDERSON—"A soaking pit-slabbing mill productivity simulation," April, p 72

P

PATTERSON, H. B. and C. F. MARTIN—"A new family of large ingots at Ford—the production transition," Feb., p 35
PAXTON, C. W. and L. H. LUTZ—"Development of hot strip downcoiler for high-strength, heavy-gage material," Feb., p 40
PEARCE, J.—"Q-BOP facility planning and economics," March, p 27
PENGIDORE, D. A.—"Hydrostatic fluid bearing for a tiltable metallurgical vessel," Oct., p 45
PFAHLER, R. R. and J. J. SMITH—"Torque monitoring for failure prevention on mill spindles and couplings," Nov., p 37
PORTER, V. S. C., F. J. YAKLICH, JR. and D. FARRIES—"Rolling and in-line finishing of bars and shapes at CF&I Steel's Pueblo plant," Aug., p 33
PRELLWITZ, S. B.—"Thermal imaging techniques applied to solving steel plant problems," March, p 59

Q

QUEHEN, A., R. THUL and J. FICAT—"Hydraulic gage control in heavy plate mills," March, p 54

R

RAYMOND, A. J.—"Remodeling the in-line galvanizing process," July, p 31
REDDY, R. L. and J. W. BROWN—"Direct reduction—What does it mean to the steelmaker," June, p 37
REINEN, DR. A. G. and F. HOLLANDER—"Automatic shape control—Hoogovens' 88-in. hot strip mill," April, p 45
RODERICK, D. M.—"Big business in America—the myths vs. the facts," Aug., p 39
ROEMMEN, H. J., K. E. BOUCKE and H. G. HILBERT—"MKW cold-mill—rolling silicon steel strip," Sept., p 25
RUSSELL, K. C., J. A. OBERTEUFFER, J. B. SEE and M. J. McNALLAN—"High-gradient magnetic filtration of steel plant waste water," Jan., p 40

S

SAKAMOTO, E., S. WAKABAYASHI and M. YAMAGA—"Centrifugal continuous caster operation at NKK," Aug., p 26
SANDELL, P. and K. G. EDSMAR—"Further experience with carbide rolls in rod and bar mills," Nov., p 60
SATO, F., K. OGATA, N. KAMII, K. KOKAI and K. INAZAKI—"Fully computerized bar rolling mill," Dec., p 47
SCHAPIRO, J. S., DR. H. CUTTER, E. B. BUTLER and T. H. BOGGS, JR.—"Federal legislation and solid recovery," Sept., p P-95
SCHROEDER, J. W. and A. C. NASO—"A new method of treating coke plant waste water," Dec., p 60
SCHROER, C. A. and D. W. CLARK—"Operating a Midrex direct reduction plant—Current state of the art," Aug., p 21
SCHUETZ, G. W. and E. J. BROWN—"Current trends in seamless tube mill design," Sept., p 47
SHIMOGAWA, K., K. TSURUOKA and T. SUGENO—"Nuclear steelmaking in Japan," Nov., p 40
SHIRAMATSU, J., "Key to successful operations of a 16 million tonne complex—Fukuyama works," Nov., p 48
SMITH, J. J. and R. R. PFAHLER—"Torque monitoring for failure prevention on mill spindles and couplings," Nov., p 37
SNOW, R. B.—"Classification and use of carbon brick or block in blast furnace linings," Jan., p 37
SOROS, P.—"New frontiers in bulk transfer technology," Dec., p 75
SPEER, E. B.—"Are the regulatory agencies changing our government?" June, p 61
STONE, J. K.—"LD replaces the open hearth process—A case study in productivity," March, p 38
STORSET, M. and H. C. BJERKE—"Magn-O-Matic billet surface inspection equipment," July, p 42
STOVER, W. L.—"Tandem reversing roughing mills for high capacity hot strip mills," May, p 48
SUGENO, T., K. SHIMOKAWA and K. TSURUOKA—"Nuclear steelmaking in Japan," Nov., p 40

T

THUL, R., J. FICAT and A. QUEHEN—"Hydraulic gage control in heavy plate mills," March, p 54
TSUJI, K. and T. ABE—"Antifriction backup bearings for tandem cold mill application," April, p 54
TSURUOKA, K., T. SUGENO and K. SHIMOGAWA—"Nuclear steelmaking in Japan," Nov., p 40
TUCKER, DR. R. C., JR. and J. M. FREIN—"Coatings improve performance of steel mill processing rolls," May, p 33
TURNER, J. F. and R. J. HERMES—"Developments in modern bar and rod mills," May, p 39

V

VAN KONYNENBURG, J. T. and J. VAN LAAR—"Silicon carbide—a new material for the blast furnace stack," June, p 57
VAN LAAR, J. and J. T. VAN KONYNENBURG—"Silicon carbide—a new material for the blast furnace stack," June, p 57
VITELLAS, M. X. and M. G. VUCICH—"Emulsion control and oil recovery on the lubricating system of double-reduction mills," Dec., p 29
VUCICH, M. G. and M. X. VITELLAS—"Emulsion control and oil recovery on the lubricating system of double-reduction mills," Dec., p 29

W

WAKABAYASHI, S., M. YAMAGA and E. SAKAMOTO—"Centrifugal continuous caster operation at NKK," Aug., p 26
WRIGHT, J.—"Mill drive system to minimize torque amplification," July, p 56

Y

YAKLICH, F. J., JR., D. FARRIES and V. S. C. PORTER—"Rolling and in-line finishing of bars and shapes at CF&I Steel's Pueblo plant," Aug., p 33
YAMAGA, M., E. SAKAMOTO and S. WAKABAYASHI—"Centrifugal continuous caster operation at NKK," Aug., p 26

LIST OF SUBJECTS

A

"A look at America's business situation"—H. HOLIDAY, Jan., p 45
"A new family of large ingots at Ford—the production transition"—C. F. MARTIN and H. B. PATTERSON, Feb., p 35
"A new method of treating coke plant waste water"—J. W. SCHROEDER and A. C. NASO, Dec., p 60
"A soaking pit-slabbing mill productivity simulation"—D. E. ANDERSON and G. E. OLNEY, April, p 72
"Air and water quality control at Stelco's Hilton works," Nov., p 75
"Air curtains on electric furnaces at Lukens Steel Co."—W. W. BINTZER and R. A. MALEHORN, July, p 53
"Air pollution control for iron and steel processes, Gas cleaning and"—J. P. BAUM, June, p 25
"Air pollution control system at Lone Star Steel's open hearth, shop"—T. R. BLAIR and W. L. MARTIN, April p 83
"Air sampling detector sniffs out fires in unmanned areas," June, p 69
"AISE Annual Convention, Abstracts of papers," Sept., p P-37
"AISE Annual Convention Chairmen," Sept., p P-25
"AISE Annual Convention Program," Sept., p P-28
"AISE District Chairmen, Vice Chairmen and Secretaries, 1976–1977," Oct., p 62
"AISE Kelly Award winners announced, 1975," Nov., p 83
"AISE National Committees, 1976," Feb., p 47
"AISE Officers and Directors, 1976," Jan., p 32
"AISE President for 1977, George A. Jedenoff elected," Oct., p 61
"AISE scholarships, Three students awarded"—Aug., p 53
"AISE Spring Convention—Abstracts of Papers to be Presented," April, p 103
"AISE Spring Convention Chairmen," April, p 97
"AISE Spring Convention Program," April, p 99
"AISE Utah Invitational—Pictorial Review," Sept., p 23
"AISE Western Conference—Pictorial Review," Sept., p 22
"Antifriction backup bearings for tandem cold mill application"—K. TSUJI and T. ABE, April, p 54
"Arab-American Business Conference, National," July, p 79
"Are the regulatory agencies changing our government?"—E. B. SPEER, June, p 61
"Armco uses pulverized coal injection at Ashland"—C. J. LABEE, Aug., p 51
"Ashland, Armco uses pulverized coal injection at"—C. J. LABEE, Aug., p 51
"Asko's modern tungsten carbide tooling plant now on stream," April, p 123
"Automatic shape control—Hoogovens' 88-in. hot strip mill"—F. HOLLANDER and DR. A. G. REINEN, April, p 45
"Avoiding hidden costs in high-current bus bar systems for steel mills"—L. J. KRULL, Aug., p 42

B

"Bar and rod mills, Developments in modern"—J. F. TURNER and R. J. HERMES, May, p 39
"Bar mills, Further experience with carbide rolls in rod and"—K. G. EDSMAR and P. SANDELL, Nov., p 60
"Bar rolling mill, Fully computerized"—N. KAMII, K. KOKAI, K. INAZAKI, F. SATO and K. OGATA, Dec., p 47
"Bars and shapes at CF&I Steel's Pueblo plant, Rolling and in-line finishing of"—F. J. YAKLICH, JR., D. FARRIES and V. S. C. PORTER, Aug., p 33
"Bearing for a tiltable metallurgical vessel, Hydrostatic fluid"—D. A. PENGIDORE, Oct., p 45
"Bearings, Cost reduction with all-purpose cartridge-type"—J. F. MEGO, Nov., p 30
"Bearings for tandem cold mill application, Antifriction backup"—K. TSUJI and T. ABE, April, p 54
"Big business in America—the myths vs. the facts"—D. M. RODERICK, Aug., p 39
"'Billet biter,' Quick sample analysis with," Dec., p 71
"Blast furnace gas energy recovery turbine and its operation"—H. FUJIMORI and M. INUBUSHI, Oct., p 51
"Blast furnace, Hotwork performs dryout of J&L's P-3," J. J. LYDEN, Dec., p 73
"Blast furnace linings, Classification and use of carbon brick or block in"—R. B. SNOW, Jan., p 37
"Blast furnace operation, Nippon Steel utilizes thermoviewer to improve," Jan., p 55
"Blast furnace stack, Silicon carbide—a new material for the"—J. T. VAN KONYNENBURG and J. VAN LAAR, June, p 57
"Blast furnace system, Concepts for an improved"—H. B. CLAFLIN, Nov., p 25
"Blowdown mute controls snort valve noise"—C. LUMPKIN, April, p 119
"BOF shop, Design engineering of the OG gas cleaning system at Inland's No. 2"—E. J. McCLUSKEY, Dec., p 53
"Brick or block in blast furnace linings, Classification and use of carbon"—R. B. SNOW, Jan., p 37
"Buildings in the steel industry, Natural ventilation in hot process"—T. E. KREICHELT, G. R. KERN and F. B. HIGGINS, JR., Dec., p 39
"Bulk transfer technology, New frontiers in"—P. SOROS, Dec., p 75
"Bundling round and shaped products, In-line automatic shearing, stacking and"—C. KRASNY and A. J. HARRIS, Nov., p 34
"Bus bar systems for steel mills, Avoiding hidden costs in high-current"—L. J. KRULL, Aug., p 42

C

"Carbide—a new material for the blast furnace stack, Silicon"—J. T. VAN KONYNENBURG and J. VAN LAAR, June, p 57
"Carbide rolls in rod and bar mills, Further experience with"—K. G. EDSMAR and P. SANDELL, Nov., p 60
"Carbon brick or block in blast furnace linings, Classification and use of"—R. B. SNOW, Jan., p 37

"CarTech conservation program," July, p 71
"Cartridge-type bearings, Cost reduction with all-purpose"—J. F. MEGO, Nov., p 30
"Caster operation at NKK, Centrifugal continuous"—M. YAMAGA, E. SAKAMOTO and S. WAKABAYASHI, Aug., p 26
"Centrifugal continuous caster at NKK"—M. YAMAGA, E. SAKAMOTO and S. WAKABAYASHI, Aug., p 26
"Centrifugally cast steel offers design flexibility," Nov., p 71
"CF&I Steel's Pueblo plant, Rolling and in-line finishing of bars and shapes at"—F. J. YAKLICH, JR., D. FARRIES and V. S. C. PORTER, Aug., p 33
"Chaparral Steel—newest U.S. mini mill"—J. A. KOTSCH, April, p 33
"Classification and use of carbon brick or block in blast furnace linings"—R. B. SNOW, Jan., p 37
"Clean energy options"—E. J. FERRETTI, July, p 38
"Coal, Industrial fuel gas from"—R. H. MURRAY, Dec., p 25
"Coal injection at Ashland, Armco uses pulverized"—C. J. LABEE, Aug., p 51
"Coatings improve performance of steel mill processing rolls"—J. M. FREIN and DR. R. C. TUCKER, JR., May, p 33
"Coke ovens, Underfiring requirements of modern"—H. A. GROSICK, E. J. HELMS and J. M. AIRGOOD, May, p 27
"Coke plant waste water, A new method of treating"—J. W. SCHROEDER and A. C. NASO, Dec., p 60
"Cold mill—rolling silicon steel strip, MKW"—H. G. HILBERT, H. J. ROEMMEN and K. E. BOUCKE, Sept., p 25
"Cold mill water conservation at John Lysaght (Australia)"—H. J. KOHLMANN and R. R. CHINNERY, Sept., p 32
"Cold reduction—Weirton's latest, Continuous-continuous"—C. J. LABEE, Sept., p P-73
"Cold reversing mill, Computer control system applied to a"—J. KIMURA, H. NAGASE and S. MATSUKA, Sept., p 37
"Computer control system applied to a cold reversing mill"—J. KIMURA, H. NAGASE and S. MATSUKA, Sept., p 37
"Computerized bar rolling mill, Fully"—N. KAMII, K. KOKAI, K. INAZAKI, F. SATO and K. OGATA, Dec., p 47
"Concepts for an improved blast furnace system"—H. B. CLAFLIN, Nov., p 25
"Continuous caster operation at NKK, Centrifugal"—M. YAMAGA, E. SAKAMOTO and S. WAKABAYASHI, Aug., p 26
"Continuous-continuous cold reduction—Weirton's latest"—C. J. LABEE, Sept., p P-73
"Control of the OBM/Q-BOP process"— DR. P. E. NILLES and P. H. DAUBY, March, p 42
"Control system applied to a cold reversing mill, Computer"—J. KIMURA, H. NAGASE and S. MATSUKA, Sept., p 37
"Controllers in steel plant control systems, Utilizing programmable"—L. C. JOHNSON, April, p 78
"Cooling—A system view of control, operation and equipment, Hot strip mill runout table"—E. N. HINRICHSEN, Oct., p 29
"Cost reduction with all-purpose cartridge-type bearings"—J. F. MEGO, Nov., p 30
"Couplings, Torque monitoring for failure prevention on mill spindles and"—J. J. SMITH and R. R. PFAHLER, Nov., p 37
"Current trends in seamless tube mill design"—G. W. SCHUETZ AND E. J. BROWN, Sept., p 47
"Cuyahoga plant, U.S. Steel unveils No. 1 rod mill at," May, p 65

D

"Desulfurization of iron—status and evaluation"—E. F. KURZINSKI, April, p 59
"Design engineering of the OG gas cleaning system at Inland's No. 2 BOF shop"—E. J. McCLUSKEY, Dec., p 53
"Development of hot strip downcoiler for high-strength, heavy-gage material"—C. W. PAXTON and L. H. LUTZ, Feb., p 40
"Developments in modern bar and rod mills"—J. F. TURNER and R. J. HERMES, May, p 39
"Developments in the Iron and Steel Industry, U.S. and Canada—1975"—J. A. KOTSCH and C. J. LABEE, Feb., p D-1
"Direct reduction plant—Current state of the art, Operating a Midrex"—C. A. SCHROER and D. W. CLARK, Aug., p 21
"Direct reduction—What does it mean to the steelmaker"—J. W. BROWN and R. L. REDDY, June, p 37
"Downcoiler for high-strength, heavy-gage material, Development of hot strip"—C. W. PAXTON and L. H. LUTZ, Feb., p 40

E

"Electric furnaces at Lukens Steel Co., Air curtains on"—W. W. BINTZER and R. A. MALEHORN, July, p 53
"Electric ironmaking process, Unique," Sept., p P-109
"Electricity from water seen as energy source," Sept., p 64
"Emission control in the steel industry, Fugitive"—A. G. NICOLA, July, p 25
"Emulsion control and oil recovery on the lubricating system of double-reduction mills"—M. G. VUCICH and M. X. VITELLAS, Dec., p 29
"Energy conservation at Shenango," Sept., p P-105
"Energy options, Clean"—E. J. FERRETTI, July, p 38
"Energy saving considerations in mass induction heating"—G. F. BOBART, May, p 59
"Energy source, Electricity from water seen as," Sept., p 64
"Environmental protection—What should be the Federal role?, How much"—F. A. NEMEC, Oct., p 35
"Europe, Nuclear steelmaking in"—DR. R. S. BARNES, May, p 53

F

"Fan noise—the user's concern"—H. F. KNIPE, Aug., p 55
"Fans—Guidelines for a successful installation, Industrial"—R. C. MYERS, Oct., p 38
"Federal legislation and solid waste resource recovery"—E. B. BUTLER, T. H. BOGGS, JR., J. S. SCHAPIRO and DR. H. CUTLER, Sept., p P-95
"Filtration of steel plant waste water, High-gradient magnetic"—M. J. McNALLAN, K. C. RUSSELL, J. A. OBERTEUFFER and J. B. SEE, Jan., p 40
"Ford—the production transition, A new family of large ingots at"—C. F. MARTIN and H. B. PATTERSON, Feb., p 35
"Fourth Annual AISE Utah Invitational—Pictorial Review," Sept., p 23
"Fugitive emission control in the steel industry"—A. G. NICOLA, July, p 25
"Fukuyama works, Key to successful operations of a 16 million tonne complex—"—J. SHIRAMATSU, Nov., p 48
"Fully computerized bar rolling mill"—N. KAMII, K. KOKAI, K. INAZAKI, F. SATO and K. OGATA, Dec., p 47
"Further experience with carbide rolls in rod and bar mills"—K. G. EDSMAR and P. SANDELL, Nov., p 60
